

Despite its young age, [GMG TECH](#) was created with a federator aim, has a considerable number of references starting with the founders of the group participators, or workers as well as the various members partners in the organization or consortium.

Study & Topic Research

1. Lake Ichkeul

Carte de la situation des aménagements hydrauliques dans le bassin versant de l'Ichkeul.

The aquaculture industry has suffered a setback in recent years. The study's objective is to make a diagnosis that allows finding possible solutions.

Carried out work:

- Ecological Analyzes o of the Lake Ichkeul
- Its current operation
- Problems
- Solution suggested and its interaction with fauna and the flora

- Action plan.

The lake Ichkeul is a zone highly protected, registered under UNESCO and RAMSAR.

2. Desalination

It is a bibliographical research, technical, economic and environmental impact on the various desalination processes.

3. Photovoltaic

Work concerns:

- Various dies and technologies and their applications,
- The principal actors: research industries and laboratories,
- Various [research programs](#) on an international scale
- Large existing power stations on a worldwide scale
